

Week 4 Lab

1. WAP to print how many numbers exactly divides the input number using do-while loop.
2. Find the lowest number among three numbers.
3. Write pseudo code for above questions 1, 2 and 3.
4. Write program to display following outputs using any loop:

a)

```
*  
  
* *  
  
* * *  
  
* * * *  
  
* * * * *
```

b)

```
* * * * *  
  
* * * *  
  
* * *  
  
* *  
  
*
```
